BRYAN THEIR LEADER

First, Last, All the Time, Say Wisconsin Democrats.

THEIR PLATFORM IS OUTLINED

State Convention of Wisconsin Democrats at Milwaukee—Reaffirm Their Allegiance to Jeffersonian Democracy.

Milwaukee, Wis., Feb. 15.—When the state democratic convention to select delegates at large to the national convention resumed its deliberations Friday, the committee on permanent organization reported its selection of Evan A. Evans, of Baraboo, as permanent chairman Mr. Evans made a lengthy speech touching on various national issues, and criticising the republican party throughout, charging that party with many abuses and practices. He concluded by paying a glowing tribute to William Jennings Bryan, in whom, he said, "you see democracy personified; see democracy at her best."

At the conclusion of Mr. Evans' speech the committee on resolutions presented its report as follows:

The democratic party of the state of Wisconsin, in convention assembled reaffirms its allegiance to the time-honored principles of Jeffersonian democracy and declares its untiring hostility to the sham and hypocrasy of the republican national administration.

It charges that the appalling abuses disclosed in recent messages of the president are the direct results of the long continued reign of the republican party in national affairs.

The people can no longer doubt the inherent perfidy of the system of government fostered and maintained by the republican party, since the republican president himself has furnished the evidence against it. Its malefactors, convicted and unconvicted are but the shameless products of a system of public plunder and debauchery has been too long endured by a patient, suffering people.

We regard with just pride and admiration that typical American, that matchless leader who has blazed the way to wholesome public opinion and ably championed the cause of the entire country. His zeal and untiring energy, his wise and far-seeing statesmanship, stamp Mr. as the greatest American statesmen and endear him to all who believe in equal rights to all, and special privileges to none. We therefore declare that we are unanimously and unqualifiedly in favor of that great commoner, William J. Bryan, as the next democratic candidate for president of the United States and we hereby instruct our delegates to the national convention at Denver to vote for William J. Bryan as the democratic candidate for president, first, last and all the time.

MAY OPPOSE WAGE CUT.

Chiefs of Locomotive Engineers Hold a Meeting Regarding Reduction.

Cincinnati, O., Feb. 15.—Following their secret conference late Thursday, the chiefs of the Brotherhood of Locomotive Engineers called on General Manager Horace Baker, of the Queen and Crescent, to discuss with him the recently announced reduction in wages on that railroad. Nothing was given out in advance of the conference as to the position that the engineers had decided to take, but there was an unofficial report that they intended to oppose the cut on the ground that they had a formal wage agreement with the railroad which had several months to run before any change could be made.

Verdict Was Applauded.

Knoxville, Tenn., Feb. 15—W. S. Bryant was Wednesday acquitted at Cleoheville Tenn., of the charge of murdering Chalmers Vertal at Barter, Tenn., about one year ago. When the verdict was announced the throng assembled in the court room applauded. It is stated that the indictment against Mrs. Vertal alleging complicity in the reputed killing of her husband may now be nolle prossed.

MAY BE MAN WANTED.

Believed Calderone Made Bombs Used in Late Black Hand Outrages.

New York, Feb. 15.—In the person of Vincenso Calderone, who was arrested Thursday night the members of the Italian detective squad believe that they have captured the man who has made the bombs used in many, if not all, of the recent "black hand" outrages in New York.

Calderone was formerly a manufacturer of fireworks at Maspeth, L. I., but four years ago his little factory was blown up, his wife killed and he himself was badly injured. He was unable to continue his work as a manufacturer and therefore came to New York and went into the business of peddling fruit. He roomed in a tenement house in Elizabeth street and was not suspected until a short time ago. Then four of the Italian detective squad at headquarters were detailed to discover the perpetrators of a bomb outrage through an Italian bank. The four detectives were at work on the case when a couple of days later the Hotel Savoia, only a few doors from the tenement, was blown up.

After some investigation the detectives decided the old crippled peddler was the man who had been seen running from the scene of both explosions. A search of his rooms revealed a half-finished bomb, a quantity of white powder which is believed to be an explosive of some sort and a large number of fuses.

CRIMINAL CODE BILL.

Liquor Question Injected Into Its Consideration by Senate.

Washington, D. C., Feb. 15.—The liquor question was injected into the consideration of the criminal code bill in the senate Thursday, when Senator Clay, of Georgia, attacked a provision of the bill, which he declared changed existing law to the extent of permitting the mailing of liquor into prohibition states or counties. This was brought about by leaving the prohibition of that practice out of the law as revised by the code.

"Liquor houses," said Senator Clay, "are relying upon this change to enhance their business."

Mr. Clay wished to know whether the commission to revise the code or the joint committee of congress for the same purpose had left that provision out of the code, and Mr. Heyburn, in charge of the bill, said the committee had taken part of the code from the commission without a change

After considerable debate, on motion of Senator Carter the old law was substituted for the revised sections with a penal clause added.

Death of an Old Conductor.

Atlanta, Feb. 15.—Captain Isaiah C. Howard, next to the oldest conductor in point of service on the Atlanta and West Point railroad, died Thursday morning at the home of his sister, Mrs. A. S. Graves, in Oakland City, an Atlanta suburb, after an illness of several months. In 1866 Captain Howard took charge of a passenger train on the West Point road and from the day of his initial run he has been passing up and down the line between Atlanta and Montgomery almost every day. Between Atlanta and Montgomery there were mighty few people, even among the younger generations, who were unknown to Captain Howard.

Crew of the Berwind Saved.

Queenstown, Feb. 15.—The British steamer Mercedes de Larrinaga from Galveston, Jan. 25, for Manchester, passed Fenale Thursday and signaled that she had on board the crew of the American fourmasted schooner Edward J. Berwind, having picked up the men in mid-ocean. The Berwind left New Orleans Jan. 13 for Philadelphia. She carried a crew of ten men and was commanded by Captain Edward Macey, of Milton, Del.

Escort for Autoists.

Chicago, Feb. 15.—An escort for the New York-Paris contestants as far west as Julesburg, Colorado, has been obtained by the bureau of tours of the Chicago Auto club. It is expected that within the next few days arrangements will be completed for a succession of guides over the entire route from Chicago to San Francisco.

$250,000 FIRE LOSS

Lithographic Plant at Buffalo Prey of Flames.

WAS LARGEST IN COUNTRY

Buffalo Evening Times Which Adjoined the Plant Was Damaged to the Extent of $50,000—Valuable Plates Destroyed.

Buffalo, N. Y., Feb. 15.—Fire which broke out on the fourth floor of the Courier Lithographing company, 197 Main street, and extending through to 204 Washington street, Friday morning, caused a loss estimated at $250,000. The plant is one of the largest of its kind in the country.

Just after the fire was discovered there were a series of explosions supposed to have resulted from the fire communicating with certain explosives used in the art department.

The press department of the Buffalo Evening Times, adjoining, was damaged to the extent of $30,000.

The Evening News has offered the Times the use of its presses and the Times will be run off from the News' press.

Besides a large quantity of valuable machinery in the Courier building, the company had just finished plates for a $180,000 contract for circus posters, and these were in an annex which was wrecked.

HAS REACHED A CRISIS.

Question of Japanese Exclusion from British Columbia.

Seattle, Wash., Feb. 15—A dispatch from Vancouver, B. C., to the Post Intelligencer says:

The fight between the Dominion and provisional governments on the question of Japanese exclusion reached a crisis Thursday when the national government announced that it would immediately disallow the natal act just passed by the legislature of British Columbia.

This act provides an educational test for all immigrants. It must remain in force ten days before cancellation. Meanwhile the government lawyers in Vancouver have been instructed to secure the admittance of all Japanese held by the provisional enactment to the extent of applying for habeas corpus proceedings in the courts. The Ottawa government has also advised the emperor that the rights of Japanese coming to British Columbia will be fully protected.

If the provisional government fails to keep out the Japanese by reason of federal interference, working men may make another demonstration against the Orientals.

FIGHT AMONG BOYS.

Fatal Difficulty Occurs at Correctional Institute on Randall's Isle.

New York, Feb. 15.—One boy is dead from stab wounds and three are seriously hurt as a result of a fight Thursday in which twenty boys participated in the correctional institution on Randall's island.

The dead boy was Meyer O'Hanesky, fourteen years old.

Rafaelo Sfonza, the same age, is under guard at the institution charged with having inflicted the wound which caused O'Hanesky's death.

All the boys involved in the trouble were inmates of the institution.

Negro Convict Escapes.

Valdosta, Ga., Feb. 15.—A telegram to officers in this city, received Thursday, stated that Noah Davis, a negro murderer recently sent to the state convict camps at Tarver, Ga., had made his escape. Davis, it is said, murdered his son-in-law here some months ago, and was given a life sentence. The authorities have offered a reward of $50 for his capture.

Dispensary Law Good.

Montgomery, Ala., Feb. 15—The supreme court has held that the dispensary law at Florala is good, and refused to order the probate judge to issue license to certain men who had sought the authority to sell.

THE NEWS FROM MELROSE.

Pleasant Birthday Party—Valentine Dance—News Notes.

Melrose, Feb. 15.—A very jolly surprise party was given at the Huffman House on Monday night in honor of Miss Nettie A. Huffman's birthday. The evening was pleasantly passed with playing games and dancing. A beautiful birthday cake with seventeen candles was presented during the evening.

David Cole and wife of Selina, Ohio, are new arrivals in town.

E. J. Whitehead has returned from Jacksonville, where he had gone to purchase furniture for the completion of the Masonic lodge rooms. J. A. Remmel returned with him. Both took in the Exposition and express themselves highly pleased with all they saw. Your correspondent was the recipient of a fine spear made by the Iggorotes from the Philippines, which was presented to him by E. J. Whitehead. It is a most cruel-looking weapon.

H. Jackson has received notice that the mail contract for the route between Melrose, Earleton and Waldo has been awarded to him.

The fact that the telephone between Melrose and Waldo is once more in working order is much appreciated by the merchants and many of the Northern visitors.

Messrs. J. W. Johnson and B. Larlar gave a delightful Valentine's Day dance at the Ladies' Hall on Friday night.

Mrs. M. H. Phifer and baby of Gainesville are visiting at the Huffman House.

Real estate is still changing hands, several transactions taking place during the past week.

The Ladies' Literary and Debating Society will give one of their pleasant social evenings February 21st.

B. Y. P. U. Party.

Friday evening the home of Rev. and Mrs. S. B. Rogers was the scene of one of the brightest of the many delightful affairs enjoyed there.

The occasion was the masked party, given by the B. Y. P. U. of the First Baptist church. The members and their friends were out in full force, making as motley an assemblage in their fancy costumes as any Twelfth-Night festival of olden times.

The evening of merry-making was greatly enjoyed by everyone present. It was with regret the company broke ranks to go home.

Nothing could have been more brilliant, and the success was most gratifying to those who worked unceasingly for just such a successful entertainment.

RIDGELY ABOUT TO RESIGN.

Comptroller May Take Presidency of Kansas City Bank.

Washington, D. C., Feb. 15.—It is stated on what is believed to be good authority, that W. B. Ridgely, the comptroller of the currency, has decided to accept the presidency of the reorganized National Bank of Commerce, of Kansas City, which suspended payment during the late financial stringency. Mr. Ridgely is now in New York arranging certain matters, it is believed, preparatory to taking active control of the bank.

Lawrence O. Murray, now assistant secretary of the department of commerce and labor, it is understood, will succeed Mr. Ridgely as comptroller of the currency. Unless something unexpected occurs to disarrange present plans, the changes incident to Mr. Ridgely's retirement will take place at an early date.

A Special at Eastman.

Eastman, Ga., Feb. 15.—The largest crowd which has yet gathered visited the Educational Special Friday morning. The weather was clear and a large delegation of farmers came in from the surrounding country to hear the lectures.

The retail merchants of the State are in convention in Jacksonville. There is a full attendance and much enthusiasm is being manifested.

DR. REESE IS CHOSEN

Elected Bishop Episcopal Diocese of Georgia.

ELECTION MADE UNANIMOUS

Dr. Reese Will Preside Over the Old Diocese of Georgia and Will Be Known as the Bishop of Georgia. Will Be Two Bishops for State.

Augusta, Ga., Feb. 15.—Rev. Frederick F. Reese, D.D., rector of Christ church, Nashville, Tenn., was elected bishop of the Episcopal diocese of Georgia by the clergy and laity assembled in annual convention at St. Paul's church, Augusta.

The strongest contest was made by the delegates supporting Dr. C. H. Strong, of Savannah, whose following has been consistent throughout. On the last ballot, however, the election was made unanimous for Dr. Reese.

Dr. Reese will not come to Georgia as a stranger. He is a native of the state and for years he was rector of Christ church at Macon, and was very popular not only with Episcopalians but all with whom he came in contact.

He left Macon to accept the rectorship of Christ church, Nashville, Tenn., where he is now located, and where he is greatly beloved.

At the recent general convention of the Episcopal church, held in Richmond, Dr. Reese was elected missionary bishop of a diocese in the northwest, but declined to accept on the advice of his physician, who declared that Mrs. Reese, who was not in good health, could not live in that climate. Dr. Reese is between 55 and 60 years of age, and is a sound and scholarly churchman.

From this on there will be two bishops of the Episcopal church in Georgia, the state having been divided into two dioceses.

Dr. Reese will preside over the old diocese of Georgia and will be known as the Bishop of Georgia. Savannah is the see of the diocese of Georgia.

Bishop C. K. Nelson selected the new diocese when the state was divided, thereby resigning the title of Bishop of Georgia, which he has borne for fifteen years, for that of Bishop of Atlanta—Atlanta being selected as the name of the new diocese.

QUIET AT FAIRBANKS,

But Precautions Have Been Taken to Guard Against Outbreaks.

Seattle, Wash., Feb. 15—A special cable to the Post Intelligencer from Fairbanks, Alaska, says:

Marshal Perry Thursday received the following from the department of justice: "Military forces ordered to Fairbanks. Meanwhile your duty is to protect law-abiding citizens without tenderness to law-breakers. Department expects you to use all necessary energy to preserve order and arrest the leaders in any attempt at intimidation. Those molesting Russians must be arrested, using such force as necessary to accomplish purpose.

(Signed) Bonaparte."

Everything was quiet Thursday.

Special deputies were organized in to bands of ten under captains. Saloons are still closed.

Men arriving Thursday reported no molestation on the trail.

The chamber of commerce and the Arctic Brotherhood officially express approval of the action of the president in ordering troops to Tanana.

Women Will Make Protest.

Montgomery, Ala., Feb. 15.—Two members of the various women's societies are much exercised over the proposition of the city to tear away the fountain in Court Square, one of the landmarks of history from the wartime past. In order that they may be heard, three of them will be allowed to address the council at the regular meeting next Monday night in opposition to the removal of the fountain. The proposition is to put the fountain on the front part of the square, where it will be in the way of the traffic.

OPERA HOUSE FOR GAINESVILLE AT LAST

E. Baird Will Install an Up-to-Date Play House Here.

EXTENSIVE PLACE IS PLANNED

The New Theater Will Have Inclined Floor and Gallery, Modern Stage and Equipment, and Will be a First-Class Place in Every Way.

From Friday's Daily Sun:

After a long and most vigorous appeal from the majority of the citizens of Gainesville for a decent opera house, their demands will now be fulfilled, and E. Baird is due the credit—or will be due the credit—of supplying this demand.

Gainesville is a good town, and has everything good and up-to-date, with the exception of a play-house. For months, realizing the need of such a resort, the people have been clamoring for an opera house, and theatrical people interested in the city have been endeavoring to work up a sentiment which would induce some person who had the funds available to erect one.

E. Baird, senior member of the Baird Hardware company, one of the largest and most substantial concerns of its kind in the State, has solved the problem, because he has decided to install a play-house which will be equal to anything in the South for a city of the population of Gainesville.

Mr. Baird proposes to convert the present opera house into a thing of beauty, modern in every respect. He will remove the partitions and office rooms on the second floor of the building, turning the entire upstairs into one big room. The ceiling and roof will be raised, an inclined floor with up-to-date opera chairs will be installed, and a gallery—the boy's delight—will also be added. The stage will be enlarged and equipped with all modern theatrical appliances, mechanical and otherwise, and in all the resort will be a credit to this section, and to the city especially.

Mr. Baird has shown his sincerity in the matter by employing an architect to draw the plans, and this architect is expected from Jacksonville today. Several thousand dollars will be expended in giving Gainesville the best opera house of any city the same population in the South.

"Noble" Home Again.

The old adage, "What's In a Name?" was contradicted a day or two recently, when "Noble," a handsome bulldog belonging to J. U. Manning, and who strayed or was led away two years ago, was restored to his owner of his own volition.

This is a strange, but true story, and goes as evidence that the dog is the most intelligent and loyal of the animal kingdom.

This dog, which is a very fine animal, was very much devoted to his master, but about two years ago he was missed from his home. A thorough search failed to reveal his whereabouts, and Mr. Manning offered a liberal reward for his return, but to no avail.

On Tuesday Mr. Manning was on the streets, and noticed the dog. He immediately recognized him as his long-lost and faithful companion and called his name, when the animal, still faithful, approached him, and the warmest reception imaginable followed.

"It is the strangest thing in the world," remarked Mr. Manning, "but I just happened to run against that dog, recognized him, and the recognition was mutual. That's a good dog. He is good because he is a faithful fellow, and I would not take a hundred dollars for getting him back, after an absence of two years."

Mr. Manning says he is not positive, but he thinks the dog had taken up with a colored man a few miles from the city.

Even from the Mountains

Ballard's Snow Liniment is praised for the good it does. A sure cure for rheumatism and all pains. Wright W. Loving, Grand Junction, Colo., writes: "I used Ballard's Snow Liniment last winter for rheumatism and can recommend it as the best Liniment on the market. I thought, at the time I was taken down with this trouble, that it would be a week before I could get about, but on applying your Liniment several times during the night, I was about in 48 hours and well in three days." Sold by W. M. Johnson.

DEATH OF MRS. EVANS.

Aged and Highly Respected Lady Passed Away Wednesday Night.

Mrs. Clarisca Jeanette Evans, eighty-eight years of age, died at the home of her son, George B. Evans, Alachua avenue, E., at 10 o'clock Wednesday night, after an illness of the past few months.

Deceased was born in Morganton county, North Carolina, in 1820. She came to Florida in 1868, settling in Gainesville. She was married to Chas. P. Evans in 1850, eighteen years prior to coming to this section.

Deceased has been for years a member of the Episcopal Church and up to a few years ago was an active worker for the cause.

Deceased is survived by one son, at the home of whom she died, and to whom the sympathy of the community is extended.

The funeral was held Thursday afternoon at 2 o'clock, Rev. Francis H. Craighill of Holy Trinity church officiating. The service was largely attended, many friends having congregated to pay their last sad respects.

The pall-bearers were Dr. Wm. Porter, James Doig, James H. Vidal, Robert Wixson, W. W. Hampton and F. X. Miller.

THE PUBLIC LIBRARY.

Number of New Books Have Recently Been Added to List.

The following new books have just been added to the Public Library, and are going like hot cakes:

"Alice for Short," deMorgan; "Aunt Jane of Kentucky," Hall; "The Daughter of Anderson Crow," McCutcheon; "The Fruit of the Tree," Wharton; "The Helpmate," Sinclair; "The Lady of the Decoration," Little; "The Lion's Share," Thanet; "The Lone Star," Lyle; "The New Chronicles of Rebecca," Wiggin; "Satan Sanderson," Rives; "Ths Shuttle," Burnett; "The Weavers," Parker; "The Traitor," Dixon; "The Younger Set," Chambers.

Annual subscription to the Library is $2—three months or less, $1. The Library is open every day except Sunday from 2 to 5 o'clock p. m. The new Library headquarters is Room 2, second floor, new Graham block, corner East Main and Mechanic streets.

Skin Disease of Twenty Years' Standing Cured.

I want you to know how much Chamberlain's Salve has done for me. It has cured my face of a skin disease of almost twenty years' standing. I have been treated by several as smart physicians as we have in this country and they did me no good, but two boxes of this salve has cured me.—Mrs. Fannie Griffin, Troy, Ala. Chamberlain's Salve is for sale by all druggists.

Meeting Medical Association.

The regular monthly meeting of the Alachua County Medical Association was held at the office of the secretary, Dr. C. L. Carter, Wednesday evening, and was well attended.

This proved to be one of the most interesting and most profitable meetings ever held by the association, as several interesting cases were presented and discussed.

TEMPLE WAS HELD.

Slayer of J. T. Chester Was Committed to Prison Without Bail.

From Friday's Daily Sun:

W. H. Temple, the slayer of J. T. Chester at High Springs a few days ago, and who was brought to this city and placed in jail, has been committed without bail to await the action of the grand jury at the fall term of the circuit court.

The story of this killing is familiar to our readers, as the unfortunate occurrence is yet fresh on the minds of all who have read it. It will be remembered, however, that Temple killed Chester, proprietor of the railroad restaurant at High Springs, in the door of the restaurant, shooting him four or five times.

The defendant, the presence of whom was waived by the court, was given a preliminary hearing in Justice Bexley's court at High Springs Thursday, Attorneys Syd L. Carter and B. A. Thrasher appearing for Temple. After the hearing of testimony and argument of counsel, the defendant was remanded without bail.

DUTTON BANK IMPROVEMENTS.

Workmen Engaged in Making This One of Handsomest in State.

The Dutton Bank, always desirous of keeping up with the times, several months ago contemplated vast improvements in the arrangement of their building, and have now engaged a number of men making these improvements and alterations.

President W. R. Thomas, in speaking of the improvements a day or two ago, stated that the officials proposed to make a place of which the city will be proud. The stairway to the main building has been transferred to the outside, and the space will be utilized by the bank. New and up-to-date furniture and furnishings have been ordered, and altogether the Dutton Bank will be one of the most modernly equipped financial institutions in the State.

REV. CARPENTER PLEASED.

Reverend Gentleman from Vermont Has Bought Property Here.

Rev. William Carpenter of Vermont, a noted Baptist divine of that State, is interested in Florida in general and Gainesville in particular, as is best demonstrated by the fact that he has recently purchased valuable property here, and is thinking seriously of making this his home.

Mr. Carpenter was attracted here on account of the superior educational and religious advantages, and is well pleased here. He left yesterday for Cedar Key, where he will be engaged assisting in a revival for the next few days. He will return to Gainesville soon, and may remain here for the balance of the season, or indefinitely.

Neglected Colds Threaten Life.

[From The Chicago Tribune.]

"'Don't trifle with a cold,' is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected, and a well established ripe cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold." Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by all druggists.

A Pleasant Occasion.

The senior Epworth League of the First Methodist church enjoyed a pleasant evening at the home of Mr. and Mrs. L. J. Clyatt Friday evening, the occasion being a Valentine party. Quite a number of the leaguers and their friends were present, and the evening was passed in a most enjoyable manner.

Foley's Honey and Tar cures the most obstinate coughs and expels the cold from the system as it is mildly laxative. It is guaranteed. The genuine is in the yellow package.—J. W. McCollum & Co.

F. D. WARNER IS MUCH ENCOURAGED

President of F. F. & V. G. Association Back From Washington.

IMPORTANT CASE WAS ARGUED

Before the Interstate Commission Regarding Excessive Charges on Produce from Points in Florida—Hearing to be Continued in Jacksonville.

Frank D. Warner, president of the Florida Fruit and Vegetable Growers' Protective Association, with other officers and members of the association, appeared before the Interstate Commission in Washington on the 6th inst. in the matter of alleged exorbitant rates on perishable shipments from points in Florida to the markets of the East and North, and President Warner, who is again at home, expressed himself as feeling encouraged over the outlook of the situation, feeling that the relief sought for will be eventually gained.

At this hearing it was impossible to examine all witnesses, with the result that the Interstate Commission postponed further hearing in the premises until March 18, when the hearing will be resumed in Jacksonville.

The contentions of the Florida Fruit and Vegetable Growers' Protective Association are familiar to the people of the State, having been published several times before. It might be well to say, however, that the purposes of this organization, which was formed about a year ago, are for the purpose of securing and having maintained just and equitable transportation rates from all points in Florida of perishable products, in comparison with rates from other sections of the country, and in several instances cases of extremely unreasonable and exorbitant charges in comparison with the rate from points in California, etc., were cited.

The final outcome of this hearing will be awaited with considerable interest, but those who have the case in hand feel confident of the good which will result.

TO PROLONG LIFE.

Prevention of Disease Much More Important Than Cure.

"An ounce of prevention is better than a pound of cure" is especially true in stomach troubles.

A few doses of Mi-o-na stomach tablets taken at the first warning of coated tongue, flatulence, heartburn, headaches, distress after eating and other symptoms of indigestion, will prevent a chronic case of stomach suffering that may last for years.

These little tablets give strength and tone to the muscular walls of the stomach and intestines, and promote the secretion of gastric juices so that whatever food is taken is naturally digested without pain or distress.

J. W. McCollum & Co have seen so many cures made by Mi-ona that they sell the remedy in 50-cent boxes under a guarantee to refund the money in case it does not cure.

BIG SUITS ENTERED.

D. E. Godwin is Suing J. L. Medlin for Aggregate of $20,000.

From Friday's Daily Sun:

There has been recently filed two important suits in this county, being two suits of $10,000 each, where D. E. Godwin is suing J. L. Medlin for assault, etc.

The circumstances are not quite clear in the case, and it is difficult to secure the facts, but it is understood that the cases grew out of an alleged assault upon the person of the plaintiff by the defendant, while the former was employed by J. L. Medlin & Co., naval stores operators at Meredith, Levy county.

Mr. Godwin is a naval stores man of broad experience, and a few months ago went to work under contract with Mr. Medlin. It is stated that the two men had a misunderstanding and that Mr. Medlin made a personal assault upon the plaintiff in these cases.

THE PERFECT WAY

Scores of Florida Citizens Have Learned It.

If you suffer from backache, there is only one way to cure it.

The perfect way is to cure the kidneys.

A bad back means sick kidneys.

Neglect it, urinary troubles follow.

Doan's Kidney Pills are made for kidneys only.

S. B. Lemons, cigar maker, living at 1311 Ashlet street, Tampa, Fla., says: "I used Doan's Kidney Pills and they cured me of backache and disorder of the kidneys. Two or three times on account of the pain in my back I was unable to work for several days. The secretions of the kidneys were in a very bad condition, dark in color, and if allowed to stand would become of the consistency of jelly. I tried various remedies, taking what seemed like gallons of medicine and I also put on plasters, but nothing helped me at all until I got Doan's Kidney Pills upon the advice of a friend of mine, and using them according to directions they cured me in a very short time."

THE CITY COUNCIL.

Called Meeting, at Which Time Important Resolutions Were Passed.

From Friday's Daily Sun:

At the called meeting of the City Council, held Thursday morning for the purpose of receiving the report of the committee appointed to investigate and report on the advisability of changing the location of the proposed Government building, the following report was submitted and accepted:

"To the President and Members of the City Council:

"Your committee to whom was referred the petition of B. F. Hampton, respecting a change in the location of the proposed Government building, respectfully report that they have investigated the matter, and would recommend that the proposal to change the location of the said Government building to a place a few feet west of the present accepted location be accepted; provided, of course, that the said location be acceptable to the Government, and that the city be released from the payment of one hundred and fifty dollars, the additional amount agreed upon at the time the said site was determined on, at the foot of center of East Main street, making the amount due by the city to Hampton & Graham for the streets or street past or around said building a continuance of East Main street, as six hundred dollars, this being the amount originally agreed upon between Messrs. Hampton & Graham and the city; the lot to be 150 feet north and south on East Main street, and 120 feet east and west on Magnolia street.

"Respectfully submitted, February 12, 1908. I. E. WEBSTER,
"E. E. CANNON,
"Committee."

At this meeting the following report was also received from the committee appointed to investigate the matter of certain property owners asking relief in the matter of street paving, etc.:

"To the President and Members of the City Council:

"Your committee to whom was referred the petition of J. D. Stringfellow et al., asking relief in the matter of street paving, beg leave to report that they have referred the question to the City Attorney, and submit the following resolution:

"Be it Resolved by the City Council of the city of Gainesville, that the Board of Public Works be authorized to collect from the property owners on Liberty street west from Arredondo street to the west line of the Grissome property, against whose property special assessments have been made for the paving of said street, one-third of the actual cost from each abutting property owner for the street abutting said property, so that the property owners on the narrow part of said street shall pay two-thirds of the cost of paving said street according to the actual width. Also the said property owners to pay all court costs and other fees that have accrued or attached by reason of the filing of suits to enforce collection.

"The actual cost of such paving not to exceed the assessment already made. I. E. WEBSTER,
"A. E. WITTSTOCK,
"Committee."

HONOR TO E. E. VOYLE.

Was Elected Vice-President of Independent Telephone Association.

E. E. Voyle and son, Chas. C. Voyle, have returned from Tampa, where they went to attend a meeting the purpose of which was to form an independent Telephone Association.

This meeting, as was anticipated, was well attended from every section of the State, every independent telephone company being represented. The organization was perfected, and the following officers were elected for the coming year:

W. G. Vereen, Tampa, president; E. E. Voyle, Gainesville, vice-president; George McKean, Ocola, secretary and treasurer.

Mr. Voyle stated that a great deal of interest was manifested in the meeting, and a good membership was secured, hence the new association starts out with the most encouraging prospects.

While in Tampa Mr. Voyle naturally attended the State Fair, and was well pleased with what he saw. He stated that the Alachua county exhibit is especially fine when it comes to agriculture, and that this county has virtually the only first-class cotton exhibit on the grounds. The county exhibit is in charge of Major John W. Tench.

Manager Callison of Spring Park Farm is at the Fair with his exhibit of fine Herefords, Jerseys, etc., and naturally this is considered the best live stock exhibit on the grounds. Manager Callison has always captured the bulk of the prizes, and judging from what Mr. Voyle could see and hear, the Spring Park Farm will stand a good show this year.

A Stitch in Time

Will save nine. So will a bottle of Ballard's Horehound Syrup always kept on hand save many a spell of sickness. A sure cure for coughs, colds, bronchitis and whooping cough. Mrs. S.——, Hot Springs, Ark., writes: "I keep a bottle of Ballard's Horehound Syrup in my medicine chest, and thank my forethought many times. It has prevented many severe spells of sickness." Sold by W. M. Johnson.

Mr. Littledale Was Here.

William Littledale of Hawthorn, the clever and successful traveling salesman for the E. J. Smith Candy Company, manufacturing confectioners, was in the city Friday. He was en route home, where he will spend Sunday with his family. Mr. Littledale declares that the financial "panic" has had no effect on his trade—in fact he is enjoying a better business than at the same time last year. "I do not believe my friends, the merchants, in my territory, have yet heard of any panic," he good-naturedly declared, "and I hope they won't if it's going to scare them off from buying."

COUGHS, COLDS, BRONCHITIS, ASTHMA, SORE THROAT, HOARSENESS, WHOOPING COUGH AND CROUP And Prevents CONSUMPTION.

DO NOT DELAY

Until the drain on your system produces permanent disability. The human breathing machinery is a wonderful system of tubes and cells. To have good health it must be kept in good order. A COLD is considered of no importance, yet if it was known by it's proper name of "throat inflammation," or "congestion of the lungs," its dangerous character would be appreciated. When a cold makes its appearance use at once Ballard's Horehound Syrup which will speedily overcome it.
WHOOPING COUGH and CROUP Require Prompt Action. SNOW LINIMENT applied to the throat and chest gives wonderful relief, while Ballard's Horehound Syrup will rapidly stop the violent paroxysms of coughing. IT IS THE ONLY COUGH REMEDY THAT WILL POSITIVELY CURE WHOOPING COUGH AND CROUP.

BEST FOR CHILDREN

The Havana dry dock, which is one of the most important and valuable inheritances of the Government of the United States from the Government of Spain, as a consequence of the war of 1898, is now one of the fixtures of the Pensacola navy yard.

Probably the first hospital in the country to have a bed specially endowed for the accommodation of victims of automobile accidents, will be the new Garretson Hospital at Philadelphia. Money for the purpose will be raised by the Quaker City Ladies' Motor Club by fairs.

One of the most daring auto rides ever attempted was recently taken by two machinists of Alamosa, Col., who drove a motor car for the first time through the Petrified Forest of Arizona. In order to cut off 20 miles they drove over a railroad trestle 494 feet long and spanning Diablo Canon at a height of 290 feet. The slightest mishap would have meant death.

A flurry of excitement was caused in Conon, Ga., the other day when Dr. Bailey, superintendent of the city high school, was horsewhipped by a posse of infuriated ladies. The posse demanded the keys of the building and told the teacher to get out. He asked permission to get his clock and while in the act of removing it from the walls the posse began to use their whips. The police had to be called upon to disperse the ladies and stop the procedure.

The State Sunday School Association will hold its annual convention in Ocala April 7th to 9th, inclusive. Mrs. Mary Foster Bryner, field worker of the International Sunday School Association, whose headquarters are in Chicago, will be present at the convention, and it is hoped that Mr. Charlie Tillman of Atlanta, the celebrated leader, will be present to have charge of the music. It is hoped that the Sunday schools of the State will be represented, and that the work will receive a renewed impetus through the influence of this convention. Col. J. M. Rivers is a member of the executive committee.

Speaking of conditions of the naval stores industry in Florida, The Industrial Record says: "The Record is in possession of information to warrant the statement that the box cut this year will be far below that of last year. This statement is made after a careful study of all the letters which have been received here during the past few weeks. Operators have been doing their best this winter to keep the box cut down. Acting upon the suggestion of the executive committee of the Turpentine Operators' Association, they have refrained from cutting boxes and have only done so when it was necessary to protect the leases they hold upon timber."

VELVET BEANS.

Press Bulletin No. 91, by John M. Scott of the Florida Agricultural Experiment Station, gives the following valuable information regarding the velvet bean:

It has only been within the last few years, perhaps not over fifteen years, that we have considered the velvet bean of any economic value. Since that time we have found it to be one of the best soil renovators, a weed eradicator (when used as a cover crop), and also an excellent feed for beef and pork production. The velvet bean belongs to the group of plants known as legumes. A plant of this group has the power to extract the nitrogen from the atmosphere and may deposit it in the soil. In this way it builds up or improves the soil upon which it grows. When any feed stuff that is rich in ammonia is fed to animals, only a part of the ammonia is retained in the animal body (ammonia in feed stuffs is called protein); hence the manure produced is rich in ammonia. It should be remembered that ammonia is the most costly of the fertilizer elements that we have to buy. Therefore if we can produce it on the farm and at the same time grow a good crop of feed, it serves us a double purpose.

Numerous reports have been received at the Station regarding the yield of velvet beans, varying from eight to forty bushels per acre. This fall we picked four measured acres. On three of these the yield averaged 2,258 pounds of beans in the pod, or 22.5 bushels or shelled beans per acre. These had been drilled in rows four feet apart. On the fourth acre, which was planted with corn in alternate rows (that is, the rows of beans were eight feet apart, with a row of corn between), the yield was 2,035 pounds of beans in the pod, or 20.3 bushels of shelled beans per acre.

The yield of 22.5 bushels per acre was obtained on very light sandy land. It is probable that if these had been planted on good land the yield would have been greater. At the present time we have no data as to the yield of hay from this crop, but it is likely to be from two to four tons per acre.

We have collected the following data: A common flour barrel full of dry beans in the pod weighs 90 pounds, which will thresh out 54 pounds of clean beans, or 60 per cent. of the gross weight. One bushel of good clean beans weighs 60 pounds.

Comparing the feeding value of cottonseed meal and velvet beans in the pod, we find that good bright cottonseed meal (7.5 per cent. ammonia) is 2.4 times as rich in digestible protein (muscle and bone-producing material), and three times as rich in fat; while the velvet bean in the pod is three times as rich in digestible carbohydrates (fat-producing material). In other words, if cottonseed meal is worth $30 per ton, velvet beans in the pod are worth $20 per ton. There is an important point that we should remember, and that is velvet beans do not have to be harvested. Cattle, hogs and horses can be turned into the field to pasture, and in this way the expense of harvesting, which means about $5 per acre, is saved.

Every farmer and stock-raiser ought to grow a few acres of velvet beans each year. They are undoubtedly the cheapest—if not the best—feed for cattle, hogs and horses, and they are a very easy crop to raise. At the same time that the crop is growing on the land it is improving the soil, and for this reason it is an excellent crop to use in a rotation. Velvet beans grown on foul land (that is, land badly infested with noxious weeds) will in a year or two free the ground from weeds. This is due to the rank growth of the vines (which often attain 20 to 30 feet in length), and to the great mass of leaves covering them. The leaves shade the ground so completely as to choke out all weeds.

The velvet bean is a rapid grower and does well on all kinds of land, except on wet or boggy ground.

THE FARMERS' INSTITUTE.

The importance to the farmer, horticulturist and stockman of the farmers' institutes. The Sun fears, judging from the small attendance at the recent meeting held in this city, is not yet fully appreciated, but the time will come when these meetings will be full of this class of people, and these industries, which form a part of the backbone of the country, will be greatly enhanced through the practical suggestions gained by them.

The purpose of the farmers' institutes, which are held throughout the State, is to educate the farmer, fruit grower and stockman to something practical and scientific—something, to use the expression, which will cause two blades to grow where only one grew before, and when these points are learned and put into practice, the farmer and the country will be better off.

It is gratifying to note that, of those who did attend the recent meeting here, the great majority were of the energetic, ambitious nature. They appreciated the benefits which might be derived from the advice of such prominent speakers as those in charge of the arrangements induced to come here, and one farmer related to The Sun that it was the most beneficial meeting, of any kind, he had ever attended, because it was intended to assist him in producing more with the same amount of energy and labor, and that he intended to carry out the lines as set down by the various speakers whom he heard.

While Alachua county has a number of progressive and successful men who are farming along what they consider practical lines—and they are practical in comparison to the majority—there is much to be learned at these institutes. Much for the progressive farmer to learn, and all for the fellow who is trudging along in the same old way, working himself and his stock to death, without results more than a scant living.

The Sun is glad to note the interest being manifested by the progressive farmer. We are also glad to note that such stockmen as N. A. Callison and S. H. Gaitskill are taking such a deep interest in that department devoted to cattle-raising, as both these gentlemen have spent large sums of money in fine cattle, in an effort to bring the standard of cattle up to a high class, and through their influence and the influence of other prominent cattlemen, it is reasonable to believe that the scrubby flat-woods cattle will eventually diminish, and in their place will be those of a much higher grade and breeding.

But we should not be discouraged at the poor attendance at the last meeting, for the reason that the institute was held at a season when those most deeply interested were busy preparing their stands for the coming crop.

Prof. P. H. Rolfs and his assistants who have been working faithfully for the success of the institutes throughout the State should be commended for their efforts, which, in the end, are going to prove of great benefit and profit to those who have the energy to attend the meetings and take advantage of the opportunities suggested by men who know their business along practical and scientific lines.

COTTON REFUND MONEY.

Hon. Frank Clark is receiving numerous requests from all parts of the country for copies of his speech recently made in the House of Representatives relative to the refunding to the Southern States the money illegally collected as taxes on cotton between the years of 1861 and 1868. In his eloquent address Mr. Clark gave a full history of the situation and discussed most interestingly the question from a constitutional standpoint. He proved beyond a possible doubt that it was an outrage perpetrated only because "might made right."

Mr. Clark is now hard at work in bringing about a favorable sentiment to support a bill which he has introduced, which provides for refunding of $68,000,000 of cotton tax money, which was, in violation of the Federal Constitution, levied and collected from the Cotton States between the years of 1861 and 1868. The bill further provides that each State shall be prorated the amount of money paid to the Government during this period as taxes at the time, provided bona fide claims be presented for the amount so paid. The amount of this fund remaining after the bona fide claims have been paid will be deposited in the treasury of the State.

For forty years has this unchallenged injustice remained as a thorn in the flesh of all Southerners, and an insult to the pride of our fair Southland. In undertaking this work Mr. Clark is to be lauded for his noble purpose and already he is receiving assurance of support from all Southern members, and even among the ranks of the Republicans there is a murmur of approval. Mr. Clark entertains the expectation that he will be able to force this proposed legislation under serious consideration at an early date and believes that it will ultimately be enacted into law.

NEW WOODS COMING INTO USE.

The scientific study of the merits of many species of trees against the use of which there has been a prejudice for one reason or another is one of the most important phases of the forest work of the Government, from an economic standpoint, and the investigations which have already been made have provided the lumber industry with much valuable information.

The latest discoveries of valuable qualities in a former neglected species resulted after an investigation of the tupelo gum which finds its home in the Southern swamps. Experts say that the study has brought out as important data as the studies made on the lobblolly pine, another species which was neglected for many years, but which is now put to valuable use for many purposes.

Tupelo, two years ago, at the time the study was begun, was little known and seldom used even in the sections of the country where it is plentiful. In the logging off of cypress in the Gulf States, where tupelo is found in large quantities, the trees were entirely disregarded. It was found that the prejudice then existing against the wood was caused by a lack of knowledge of its properties and lack of care in handling the material. The investigations have been carried on by the United States Forest Service and have proved the value of the wood for a number of uses. The result of these studies, removed, very largely, the existing prejudices against this gum, and in a short time the demand for tupelo rapidly increased.

This wood is now widely used, not only in the State where it grows but also in different sections of the country, in the manufacture of wooden pumps, sounding boards for violins and organs, mantles, and interior finishing, such as moulding, door and window frames and door jams. It is manufactured also into all kinds of lumber, including a good grade of edge grain flooring. Tupelo gum, in the form of flooring, was recently found competing successfully with Douglass fir in the Los Angeles market, even though bearing a freight rate of 85 cents per hundred weight from its source of production in Louisiana.

This is only one example of the studies carried on by the Government for the purpose of creating markets and establishing uses for the kinds of wood whose properties are not understood. The reason for making these studies is that by finding substitutes for woods now in use which have grown scarce in consequence of an excessive demand, the timber supply of the country is in effect increased, the most economical use of wood is promoted, and the evils of a general shortage in wood supply are to that degree lessened.

THE PUBLIC BUILDING.

It having been rumored, or the report having been started in this city and section, that the appropriation for the proposed Government building would be considerably delayed, owing to the fact that there would be no public-building bill introduced at this session of Congress, Postmaster L. C. Lynch authorizes the statement that he has the assurance of Congressman Frank Clark that the increase in appropriation will be forthcoming at the present session.

Congressman Clark added that, while there was no certainty of a public-building bill, he expected the increase to be granted under the act of the sundry civil bill.

The supervising architect is now working on new plans, as the change of Alachua county from the Southern to the Northern District of Florida, necessitating the holding of United States court here, also necessitated a larger and differently arranged building.

The dispatches the past few days contain the information of the resumption of operations by many of the mills and factories in various sections of the North and East, which were closed down as a result of the panic. Of course their reopening will have to be credited to Republican prosperity.

A man was arrested in Atlanta the other day for violation of the Georgia prohibition law who had seventy kegs of beer on his premises. He claimed to be a chemist and was using the beer in the manufacture of a non-intoxicating beverage.

There are 10,000 families asking for assistance in the city of Chicago.

POLITICAL ANNOUNCEMENTS

FOR MARSHAL.

To the Voters of Gainesville—I take this method of announcing my candidacy for Marshal of the City of Gainesville. I have been on night work as an officer, protecting you and your interests while you were asleep, for about three years, and leave it to you as to whether I have performed my duty well, and with impartiality. I think I have been long enough as night work to be entitled to a day job, and if elected I promise you a faithful, impartial and efficient service. Yours for order, C. L. KITE.

I take this method of announcing my candidacy for re-election as City Marshal at the election April 14th, 1908. I have endeavored to perform my duty without fear or favor, and would appreciate the support of my fellow-citizens, promising the same attention to the duties of the office in the future as in the past. Thanking you for past support, and soliciting your votes at the coming election, I am, Very truly, BEN T. ARNOW.

I hereby announce myself a candidate for City Marshal in the election to be held on the 14th day of April, 1908. I promise if elected to endeavor to do the duties required by the ordinances as near as I possibly can, and I solicit the votes of all law-abiding citizens. Respectfully, CHAS. PINKOSON.

SOUTH MAY GET MANY MILLIONS

Strong Efforts Being Made to Have Cotton Tax Returned.

CONGRESSMAN CLARK'S BILL

May Yet be Means of Having Returned to People of Twenty-Eight States Money That Was Illegally Collected From Them.

The Jacksonville Metropolis of Saturday contains the following which will prove of especial interest here, since it was Congressman Frank Clark of this city who introduced the measure at the present session of Congress:

"An important meeting of Representatives of seven of the Southern States, was held in Washington this week for the purpose of setting on foot a movement looking to co-operative action for the enactment of legislation, introduced by Congressman Clark of Florida, directing the repayment of $68,000,000 collected by the National Government through a direct tax on cotton from 1813 to 1868, inclusive.

"It was determined to proceed with care and caution, with a view to educating public sentiment up to the point where the justice of the States which paid the tax may be generally recognized. It was decided that a bill should be drawn and introduced providing for the payment of the money to the various States and by the State governments returned to the individual claimants. This bill is not to bear the name of any member. It will provide that no assignee of any claim shall be paid, and will prohibit the payment of counsels' fees for the collection of the claims.

"While Senators and Representatives from Southern States will head the movement for the repayment of the tax, 28 of the States of the Union united in payment, the smallest amount having been paid by Iowa, which contributed 27 cents. The largest amount is due Georgia, and is $11,897,094.98.

"The conference was presided over by Representative Clark of Florida."

A Pleasant Party.

Ulric Bailey celebrated his fourteenth anniversary at the home of his parents, Mr. and Mrs. O. B. Bailey, North Gainesville, Friday afternoon, and it is needless to add that the large crowd of his friends present enjoyed the evening to its fullest extent.

Master Ulric, with a desire to create something novel, secured a mule team and visited each of his invited guests, conveying them to the home. This was a pleasing as well as a most amusing feature of the evening.

The evening was passed in an appropriate manner, games, etc., being indulged in. Refreshments were also served.

ALDERMAN WEBSTER RESIGNS.

Gives as Reason Pressing Business in His Regular Duties.

Alderman I. E. Webster, who was elected to represent the North Gainesville section as an alderman on the City Council, has tendered his resignation, and the same is now in the hands of Clerk J. M. Dell.

Col. Webster, who has been quite prominent in politics, and is a most progressive citizen and property owner, was elected in 1907 for a term of two years, receiving a most complimentary vote. He has served his constituents and his city well, but sets up as a reason for his resignation, after having served a year, that his business duties prevent him from giving the office the time and attention it required.

Inasmuch as another election will be held in April, it is probable that Alderman Webster's resignation will not be accepted until his successor may have been selected in regular order.

Col. Webster has made a faithful and efficient official, and it is regretted that he will be compelled to relinquish his municipal duties on account of other business.

THE "OLE HOSS" SALE.

Lots of Fun and Some Profit from Southern Express Sale Saturday.

From Sunday's Daily Sun:

The "ole hoss" sale of unclaimed freight at the office of the Southern Express Company, which is held annually, was pulled off at the office yesterday, Auctioneer John W. Davis conducting the sale.

Auctioneer Davis, who has been in the employ of the Southern Express company for several years, has made a great success of all sales, and managed to dispose of four hundred and twenty packages at this sale, some of value and "some not"—but the fellow who bought the package paid the price, and it was really amusing at times to see the contents opened, when one was good-natured enough to display the package he had purchased. As an evidence, one fellow who bid $2.50 on what he thought was a suit of clothes, opened up a package of samples of cheap paper, while the other fellow who thought he was getting nothing secured in many instances good values at a low price.

A NEW INDUSTRY.

The Brown-Jennings Hardwood Plant is Now Ready for Business.

Gainesville has a new industry, which is no more than the Brown-Jennings hardwood plant.

This industry, which will manufacture rims and spokes for wagons from hardwood, has just turned on the steam. The new firm will employ several hands, and will add materially to the commercial advantages of Gainesville.

The new plant is located in South Gainesville, and will begin work right in a day or two. They expect to ship their wares to every part of the United States, and will no doubt enjoy a fine trade.

MAY ERECT SANITARIUM.

Dr. Marsh, Prominent Physician, is Working to That End.

Dr. C. F. Marsh, a prominent physician of Pensacola, has been in the city for the past few days in the matter of establishing a National hospital and sanitarium here, and so far has met with remarkable success.

Dr. Marsh is a man of excellent bearing, a gentleman of the first professional mark, and is meeting with good success here so far. His idea is to establish a hospital which will gain a National reputation, modern in every way, and if he succeeds it will mean a great deal for Gainesville and the State.

Accident to Small Boy.

From Sunday's Daily Sun:

Master Lee, the bright little son of Mr. and Mrs. E. M. Beville, was the victim of an accident a day or two ago which cost him the price of the fourth or index finger of his left hand.

While the little fellow was playing with a hatchet he let the heavy instrument down suddenly on his left hand, striking the finger and almost severing it. He was brought immediately to this city to Dr. J. F. McKinstry, Jr., but the wound was of such a nature that amputation became necessary.

The little fellow stood his trouble like a man, and the chances are that he will soon be all right again.

HON. J. S. BEARD MADE A GOOD TALK

Audience Was Not Large, But Representative and Very Attentive.

PAID THEM HIGH COMPLIMENT

Stated That, While He Realized His Hearers Were Small in Number, They Represented the Best Element of the Voting Faction of This District.

Hon. J. S. Beard of Pensacola, candidate for the United States Senate, opened the campaign in Gainesville Saturday by speaking to an audience in the court house of probably seventy-five people.

While the audience was not as large as he had anticipated, owing to the fact that it had not been properly advertised, the speaker began by saying that he was grateful for the fact that it was a representative audience, 90 per cent of whom, he ventured, had a vote in the coming Democratic primary.

Senator Beard spent a little less than an hour expressing his views on various matters politic, and at the conclusion it was easily seen that he made a good impression.

Senator Baird arrived in the city Friday evening, and spent the evening and the following day in renewing old acquaintances and making new ones. He is a gentleman of pleasing address, a most genial disposition, and destined to make friends wherever he goes.

While here Senator Beard was a guest of The White House.

FRIDAY NIGHT'S RAIN.

Rain Was General Throughout This Section, Doing Great Good.

A general rain prevailed in this section Friday night, or early Saturday morning, which, after the warm spell, proved a great benefit to the truckers and growers. It was a welcome visitor to all who are engaged in the work of agriculture and truck growing, as it acted as a kind of natural irrigation.

The farmers of Alachua county have so far been blessed this year with their crops, and hope by favorable conditions to eclipse anything of the preceding years. The stands are good, the seeds are good, the work is good, and altogether the crops of the county as a whole this coming year should exceed anything ever produced in the county. All the work has been well done, and it now rests with nature to do the balance.

Death of Miss Higginbotham.

From Saturday's Daily Sun:

Miss Cannas Higginbotham, about forty-five years of age, died at the home of her brother, I. D. Higginbotham, South Gainesville, Friday afternoon, of congestion of the lungs.

Deceased was well known and popular in this city, where she has resided for several years. She was a member of the Baptist Church, and the funeral, which will be held from the residence at 2:30 o'clock this afternoon, will be conducted by Rev. S. B. Rogers of the First Baptist church.

The following gentlemen are requested to act as pall-bearers, and are requested to report at the residence, South Gainesville, at 2:15 p. m.: Messrs. Tenent, John Sanchez, E. D. Wynn, Clarance Scarborough, Alex Avera.

Friends extend sincere sympathy to the bereaved relatives.

Funeral of Miss Higginbotham.

From Sunday's Daily Sun:

The funeral of Miss Cannas Higginbotham, the death of whom occurred at the home of her brother, I. D. Higginbotham, South Gainesville, Friday afternoon, was held at 2:30 o'clock from the residence Saturday afternoon, Rev. S. B. Rogers of the First Baptist church officiating.

The funeral was well attended, many friends of the deceased having attended the services as a last mark of respect.

Friends of the family extend sincerest sympathy in their sad hour of bereavement.

The complaint among mill men at Jennings now is that they cannot get laborers to work. The high wages which prevailed in the past have completely demoralized the section. Men will not work for lower wages.

SEA ISLAND COTTON.

Savannah Market Ruled Quiet, With Irregularity in Prices.

Savannah, Ga., Feb. 15.—The market for Sea Islands was quiet during the past week, with a good deal of irregularity in prices paid. Quotations are reduced 2 cents for extra choice Georgias, and are put at the previous inside figure for choice. The very inclement weather throughout the week interfered somewhat with business, but fair sales were made. The business was mostly in extra choice Georgias, choice, and extra fine; other grades were rather neglected. The demand was mostly for Eastern mills.

The following prices are based on factors' quotations and are revised weekly on Fridays:

Fancy Floridas	28	
Fancy Georgias	27	@28
Extra choice Floridas	21	@23
Ex. choice Georgias	19	@21
Choice Ga's. and Fla's	17	
Ex. fine Ga's and Fla's	16	
Fine Ga's. and Fla's	14	@14½
Common Ga's. and Fla's	12½	@13

Charleston, S. C., Feb. 15.—Sea Island market: Receipts, 51 bags; exports 62 bags; sales, none; stock, 2,807 bags; market quiet; fine, 35½c; off color, 32c; No. 1 tinged, 28c.

TOPICS FROM TRENTON.

People Suffering With Lagrippe—Personal Notes.

Trenton, Feb. 13.—Mrs. S. O. Barron and Miss Mary Philpot of Bell were visiting here Friday. Miss Ada Philpot accompanied them to see her mother.

The lagrippe's strong arm is holding a number of people to their room. Mrs. Luther Yaney and children, Mrs. H. C. Money, Mrs. Tyson and Mrs. Corbet are sick with the dreaded ailment.

B. T. Robinson, M. A., Th. M., of Lake City, addressed a pleased congregation Monday night in the interest of Columbia College.

Capt. and Mrs. Bell, with other friends, are launch-outing up and down the old Suwannee river.

J. F. Bell of Rice's Landing, Pa., arrived last night with a group of dogs—thirty in number—and will go to John Hardee's in Levy county to train this company of canines.

Our farmers are busy preparing and planting. H. G. Gay has five acres of corn up and looking fine.

The cotton association people have between twenty and thirty thousand dollars' worth of cotton stored here for better prices.

HAWTHORN NEWS NOTES.

Hawthorn, Feb. 15.—The Ladies' Improvement Society gave a supper at the town hall recently. The supper was well patronized and a neat little sum was raised. The society is having shade trees planted along the streets and about the town in general. The society has done a great deal toward beautifying the town. Arbor day was observed at the public school with a short program by setting a few trees. There are now thirty-eight trees in all on the school lot.

There are quite a number of tourists in town now and all appear to enjoy the hunting and fishing.

F. J. Hammond reports his orange grove as being loaded with bloom buds. The orange groves in general are looking well and a large crop of the golden fruit is expected.

The framework for Hammond's new warehouse is now up and the building will soon be ready for use.

Mr. and Mrs. A. H. Carter and son, Donald, of Lebanon, N. H., are at Monte's Hotel for a season.

Messrs. Lute and Newton Pearle of Hopkinsville, Ky., after several weeks here, have gone for a trip to the Gulf coast to see the sights along that famous river.

Gen. Wheeler and family of New York are expected to arrive here soon.

B. F. Dyess, who has been quite ill for some time, is reported as improving.

John D. Teeter is quite low at this writing on account of heart trouble.

Dr. Kelley is Pleased.

From Sunday's Daily Sun:

Dr. J. L. Kelley, County Superintendent of Public Instruction, has returned from a visit to the Pine Cottage, Antioch and LaCrosse schools, and is well pleased with the condition of all of these institutions.

"I feel particularly grateful to the teachers of these schools," remarked Superintendent Kelley. "They have worked hard and faithfully but I must give the pupils credit by saying that they, too, have been faithful, and the combination has worked marvels. I am proud of these schools, their teachers and the pupils."

The LaCrosse school has been closed temporarily, on account of illness and the fact that many of the farmers are busy and, being unable to secure help on the farm, were compelled to take their children from school to assist them. The school will reopen in a short time, however.

Dr. Kelley is now busy visiting the schools, and those who desire to see him in his office should come on Saturday.

CALL FOR PRIMARY.

The Second Congressional Executive Committee Fixes Dates.

A call has been issued by the Democratic Executive Committee of the second district, comprising seventeen counties, as follows: Alachua, Baker, Bradford, Brevard, Clay, Columbia, Dade, Duval, Hamilton, Nassau, Osceola, Orange, Putnam, St. Johns, St. Lucie, Suwannee and Volusia.

This call is for the purpose of fixing the dates of the coming Democratic primaries throughout the district, and is as follows:

"A primary for the nomination of a Democratic candidate for Congress from the Second District of Florida is hereby called for May 19th, 1908, and in case there is no nomination in this primary, then the two candidates receiving the highest vote shall be placed on the official ballot in the primary to be held June 16th, 1908.

"This primary shall be held under the same rules and regulations prescribed by the State committee and by the law of the State.

"Any Democrat desiring to be a candidate for Congress shall make application in writing to the chairman of this committee, pledging himself to abide by the result of said primary, and accompanying said application with the sum of $375 on or before 12 o'clock noon, Wednesday, the first day of April, 1908.

"F. A. HOLT, Chairman.
"JESSE E. BURTZ, Secretary."

MR. HULME INJURED.

Well-Known and Popular Traveling Man Victim of Serious Mishap.

The Ocala Daily Banner of the 13th inst. contains the following information which will be read with interest, as Mr. Hulme lives at Hawthorn, and has many friends in this section:

"Mr. Y. M. Hulme of Hawthorn, who travels for the C. B. Van Deman Company of Jacksonville, was the victim of a furious runaway at Campville Wednesday. Mr. Hulme was thrown from the vehicle, the wheels passing over his body. Fortunately he escaped any serious injury. After the accident Mr. Hulme came to Ocala on the Seaboard and is now at the Ocala House, where he is receiving medical attention."

Had a Fine Meeting.

Grand Chancellor Louis C. Lynch and Grand Representative Robt. E. Davis have returned from Alachua, where, on Thursday evening, the former made an official visit to the Alachua Lodge, Knights of Pythias.

This meeting was well attended, and Chancellor Commander Lynch complimented the lodge very highly. He made an excellent talk along the lines of the good of the order, as did Col. Davis, Chancellor Commander W. H. Seeley of Alachua Lodge, and other members of the lodge.

In all, the evening was spent in a most enjoyable and profitable manner mutually, and everybody felt better for "turning out."

Chancellor Commander Lynch stated Friday upon his return that Alachua has one of the most enthusiastic and most progressive lodges of any town in the State of its size.

B. Y. P. U. Party.

From Saturday's Daily Sun:

The Baptist Young Peoples' Union gave a delightful Valentine party at the home of Rev. and Mrs. S. B. Rogers, S. Prairie avenue, last night, which was well attended by members of the Union. The evening was passed in a most enjoyable manner, an interesting program having been arranged for the occasion.

Simple Remedy for La Grippe.

BLOOD POISON
HUMILIATING-VILE-DESTRUCTIVE

The first symptom of Contagious Blood Poison is usually a little sore or ulcer, which is quickly followed by a red rash on the skin, swollen glands in the groin, falling hair, ulcerated mouth and throat, and often copper colored splotches on different parts of the body. As the blood becomes more fully contaminated with the poison, pustular eruptions and sores break out on the flesh, and in extreme cases the nerves and bones are attacked and the finger nails drop off. Then the sufferers find themselves diseased from head to foot with this humiliating, vile and destructive poison. No other disease is so highly contagious; many an innocent person has been inoculated by handling the clothing or using the toilet articles of an infected person. There is but one certain, reliable cure for Contagious Blood Poison, and that is S. S. S. It attacks the disease in the right way by going down into the circulation, and neutralizing and forcing out every particle of the poison. It makes the blood pure and rich, tones up the system, and completely and permanently cures this disease. S. S. S. has cured thousands of cases of Contagious Blood Poison. If you are suffering with this debasing and destructive disease begin the use of S. S. S. and get the poison out of your blood before it permanently wrecks your health. We have a home treatment book on the disease which we will send free to all who wish it, and in addition our physicians will give without charge any medical advice needed. HON. P. M. TRAMMELL
For ATTORNEY-GENERAL

To the Citizens of Florida:

I wish respectfully to announce that I will be a candidate before the coming Democratic primary, for nomination to the office of Attorney-General of the State of Florida. In announcing for this important office, I wish to assure the citizens of our State that if it is my honor to serve them in this office, I shall discharge the duties appertaining thereto in accordance with the law, with impartiality, and without fear or favor.

Acknowledging a life-time debt of gratitude, I will say that through the kindness of the citizens of Polk county, I have served three sessions in the Florida Legislature. In my humble way I have constantly striven to foster and conserve the interest of all Florida. With high regard for all those entertaining contrary views, I have always exercised my vote and influence, as I conceived it, for the best interest of the whole people.

I lay no claim to superior and infallible judgment, and frankly admit that I have doubtless made some mistakes. However, they have been honestly made, and I believe despite my occasional blunders my record as a whole will be looked upon by the fair and unprejudiced as the record of one whose heart beats in sympathy with the interest of the great masses of our beloved State. My candidacy, supported by marked encouragement of kind friends emanated from my own aspirations, and not as the project of any faction or political contingency in our State. Friends both political and personal are cherished by me and I esteem their advice and counsel, yet neither partisanism nor friendship has controlled nor shall control me in performance of public trust. My only master shall be duty to the Commonwealth and the advancement of the public good. I believe the government that shall be most prosperous and the people that shall be happiest and most content are found in the land where equal justice is done unto every man and to every interest, and as far as within my power I would make ours an ideal government. As Attorney-General I would hew to the line and would guard zealously against any infringements, either by omission or commission, of the rights of the people as given to them by our constitution and statutory law. My destiny in this undertaking is subject to the will of the man who casts the ballot, and to him I appeal for support that I may achieve success, assuring each and every voter that I shall be grateful for his influence.

Respectfully,
PARK M. TRAMMELL.

NOTICE FOR PUBLICATION.

Land Office at Gainesville, Fla., February 11, 1908.

Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all the public land States by act of August 4, 1892, John F. Hodge of Newberry, county of Alachua, State of Florida, has this day filed in this office his sworn statement No. 709, for the purchase of the SW ¼ of NE 1-4 of Section No 22, in Township No 10 S., Range No. 16 E., and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before Register and Receiver at Gainesville, Fla., on Thursday, the 23rd day of April, 1908.

He names as witnesses: G. W. Snyder, Joe Martin, F. D. J. Hodge and J. S. M. Hodge all of Newberry, Fla.

Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 23rd day of April, 1908.

NEWS LETTER FROM NATIONAL CAPITAL

Name of Bryan Evokes Applause Among Democrats.

W. R. HEARST'S REPORTED MOVE

It Is Said He Intends to Hold Hearst League Convention in West Between Dates of Other Parties' Meetings—Speaker Cannon Worried.

Special Correspondence The Daily Sun.

Washington, D. C., Feb. 12.—Enthusiasm characterized the discussion of President Roosevelt's recent message on the floor of the House of Representatives last week, and at no time was the applause greater than when Representative Hepburn of Iowa delivered a strong eulogy of the President. From the Democratic side came enthusiastic commendation and seldom has such a tribute been paid to a Republican President by a Democrat as that spoken by Representative Bourke Cockran. During the course of his speech he took occasion to say some nice things about Mr. Bryan which evoked such applause from the Democrats that it was quite a while before he could proceed. "If Mr. Bryan represents the determination to prosecute malefactors for their crimes, and if a rigorous enforcement of the law should result in congesting the criminal courts," said Mr. Cockran, "then the plunderers of millions will be given precedence in the pathway to prison over the pilferers of pennies."

Later in the week the Democratic leader, Mr. Williams, made a speech on the message along lines previously indicated to him by Mr. Bryan. He declared that railroad-rate legislation originated with the Democrats; said that the Democrats must take issue with the President on his recommendation that the railroads be granted the power to pool, and with the President's argument that it was useless to attempt to punish "the men, the flesh, the beings," who violate the law in the name of corpoarate authority. He further insisted that the Democrats could not agree with the President on the proposition to compel all corporations doing an interstate business to take out a Federal license. Commenting on the omissions in the message, Mr. Williams emphasized the lack of definite tariff revision recommendations, saying, "with the exception of a little insignificant utterance about putting works of art, wood pulp and paper on the free list, he has never raised his voice against the very poison that lies at the heart of your entire system."

There is no little anxiety in Democratic circles in Washington over the reports which have reached here from the West to the effect that William R. Hearst is perfecting an organization and proposes to hold a Hearst League Convention, probably in Indianapolis, between the Republican and Democratic National conventions. It is asserted that Mr. Hearst has secured the services of Charles A. Walsh, former secretary of the Democratic National Committee, and that Mr. Walsh has employed a number of able lieutenants who are assisting him in the work of organizing the Hearst machine, or party. No definite information can be secured as to the purpose of the Hearst movement. Does Mr. Hearst expect to form a third party and nominate himself for the Presidency? Does he expect to develop a strength which will enable him to dictate terms to the Democratic party? Will his movement detract seriously from the Democratic vote? These and a host of other questions are being asked by anxious Democrats who cannot fathom the purpose of the great editor-politician. It had been supposed that because of his extensive newspaper properties Mr. Hearst would not dare to oppose Mr. Bryan and that may be the case, but his present purpose is the occasion of the utmost curiosity and anxiety.

Senator Stone of Missouri has been making an earnest effort to organize the Democrats in the Senate so that they might present an effective resistance to the Aldrich financial bill but he has been checkmated by the persistent opposition of Senators Bailey and Teller, and there is every prospect that the minority will have to content itself with offering a few amendments which might improve the measure, seeing them voted down by the Republicans and then permitting the bill to pass the Senate. Nor it is likely that any effective opposition can be presented in the House. There are doubtless a majority of the members of the House who are opposed to the bill but the Speaker is for it and he rules the lower chamber. Mr. Cannon is himself a banker and a millionaire and he regards the Aldrich bill as eminently satisfactory. If its opponents in the Republican ranks threaten to show their independence there will be a caucus and every Republican will be whipped into the line under the scourge of the party whip.

Speaker Cannon is much worried these days because of the fact that there are certain magazine writers who have been sent to Washington to scrutinize his political record with a view to ascertaining whether he is a fit man to be elected President. It is whispered about in the cloakrooms and lobbies of the Capitol that there are some pages in the political life of the Speaker which would not look well in print, and some of Mr. Cannon's closest friends say that the old and haggard look he has worn recently is due to the fact that he has been told that the "muck-rakers" are close on the trail of certain pages of the record he would be extremely sorry to see in print. However, that is all political gossip.

Mr. Cannon has assured the delegation of the National Manufacturers' Association that there will be no tariff commission created this year. Of course the Speaker is the "standpat" candidate of the Republicans, but it is regarded as a safe prediction that should either Mr. Bryan or Mr. Taft be elected, the President would call a special session for tariff revision early in April, 1909.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle

Special Announcement Regarding the National Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults.—J. W. McCollum & Co.

Engagement Announced.

New York, Feb. 13.—The engagement of Miss Nora Stanton Blatch, daughter of Mr. and Mrs. W. H. Blatch, and granddaughter of Elizabeth Cady Stanton, to Dr. Lee de Forest, vice president of the American de Forest Wireless Telegraph company, is announced. The ceremony will take place before the spring.

The editor of The Memphis (Tenn.) Times writes: "In my opinion Foley's Honey and Tar is the best remedy for coughs, colds and lung trouble, and to my own personal knowledge Foley's Honey and Tar has accomplished many permanent cures that have been little short of marvelous." Refuse any but the genuine in the yellow package.—J. W. McCollum & Co.

SHORT STATE ITEMS

Citrus and Marion counties will soon be connected by the erection of a good steel bridge over the Withlacoochee river at Stoke's ferry.

Milligan, in Santa Rosa county, was visited by a disastrous fire Sunday night, when the postoffice and other buildings were destroyed.

The music teachers throughout the State will meet in St. Augustine on February 25th for the purpose of perfecting a State organization of music teachers.

Work on the jetties at Miami is progressing nicely. As soon as the work on them is completed the channel will be opened up to a depth of eighteen feet.

J. R. Moore, a successful farmer of Middleburg, has a large turnip on exhibit which weighs nine pounds with a circumference of thirty inches. He shipped it to Jacksonville to the Florida Mid-Winter Exposition.

W. M. Brown, president of the Fort Dallas National Bank, has transferred all of his property to the receiver of the bank for the benefit of the creditors of the bank. In time to come every cent will be paid to them in full.

According to The Quincy Times, people visiting the oil test well being sunk near there report that the water rising about the casing is warm, those digging with their hands into the sands finding it unpleasantly so at a little depth.

The bodies of seventeen soldiers who died at Miami during the Spanish-American War will be sent to St. Augustine for interment in the National cemetery. Two monuments will be erected in the cemetery over their bodies.

The Greek section in Tarpon Springs was completely wiped out by fire Tuesday. The loss was estimated at $40,000. A few weeks ago fire destroyed the greater part and Tuesday morning burned out the remainder. No clue as to who set the fire has been found.

While Fred Gleason, a white employe of the Seaboard Air Line railroad, was working on a coupling of a car attached to the Sarasota-branch train in the Seaboard yards in Tampa, the train was backed down on him and his head so badly crushed as to cause almost instant death.

While Miss Miller, who lives in the O. F. Fish house on New York avenue, was boiling some water in an enclosed pot on the cook stove, Tuesday, the pot exploded, burning her painfully though not seriously. The water was thrown by the explosion into her face. Fortunately, she wore glasses, which saved her eyes.—DeLand News.

The Dade county commissioners have passed resolutions suspending all road work on the county roads, storing the machinery, disposing of the mules and advertising for bids for the lease of the county prisoners. This action was made necessary by the fact that the road fund appropriation has been entirely exhausted.

H. Harding, a photographer of Pensacola who was supposed to be a white man but later discovered to be a Louisiana negro, has left the city. The negro during his two years' stay in that town, was never seen with his race but was continually on the street with white men and ladies. It is reported that he will receive a warm reception if he ever returns to Pensacola.

Captain William J. Tucker of Fort Pierce, one of the best-known citizens of South Florida, and who has always been noted for his generosity, has decided to give his pension to the Confederate Home inmates in Jacksonville. He has sent $13.89 to them, which was the amount of his first warrant, and says that he will send them right along as he receives from the Comptroller.

C. A. Killer has a banana grove that is a nine-day wonder. It consists, roughly estimated, of one-eighth of an acre, and at present there are more than 200 fine bunches on the plants matured and almost ready for market. Mr. Killer wholesales this fruit readily at a dollar per hundred, and as the bunches easily average 100 "fingers" to the bunch the result is readily obtained. These bananas are grown in damp soil without fertilizer and very little care so that the returns are clear profit.—Fort Pierce Tribune.

The land department of the Florida East Coast railway has placed on exhibition in St. Augustine a fine specimen of what is known as the Trapp Avocado raised in the tropical grove of Mr. W. E. March ten miles south of Miami. This grove contains 300 trees four years old which are now bearing and the fruit is so delicious, and in such great demand, that it brings $6 per dozen delivered at the depot in Miami. The trees bear during January, February and March, and this fruit is destined to be a great money maker in the Miami section.

The Griffing Company of Macclenny, Florida, have something like 800 acres set out to peaches at Komoko, Richland and Griffing. Prospects up to date, so Mr. Griffing reports, are the most encouraging in the history of the industry in Florida. The trees so far are perfectly dormant, the weather in January being just cold enough to keep them from pushing forward permanently and not too cold to do them any harm. It is not likely that February will bring weather cold enough to do them any injury, and Mr. Griffing confidently looks forward to a crop of from 60 to 70 cars from his own concern's orchard. The movement will commence about the middle of May, the first variety to go forward being the Jewell.—Fruitman's Grower.

Made Rich Haul.

Mexico City, Feb. 14.—Four American pickpockets robbed Paymaster Mariano Urdaivia of the Zapadores battalion of $5,600 as he was leaving the National bank with the money to pay the troops. The theft was witnessed by a detective, who caught two of the men, and recovered all but $100 of the cash. The Americans gave fictitious names.

This May Interest You.

No one is immune from kidney trouble, so just remember that Foley's Kidney Cure will stop the irregularities and cure any case of kidney and bladder trouble that is not beyond the reach of medicine.—J. W. McCollum & Co.

"WHY do I take Cardui"? writes Mrs. Jelemma Mullins of Odessa, W. Va. "Because, after suffering for several years with female trouble, and trying different doctors and medicines without obtaining relief, I at last found, in Wine of Cardui, a golden medicine for all my ills, and can recommend it above all others for female complaints."

Cardui furnishes safe relief for backache, headache, periodical pains, irregular, painful or unhealthy catamenial flow, and all ailments from which sick women suffer. A perfect tonic for delicate women. A pure vegetable medicine for girls and women who are subject to the complaints peculiar to their sex. Has benefited over a million who used to suffer as you do.

Mrs. Leonard Guthrie and Miss Hettie Thigpin of Hawthorn were shopping in the city yesterday.

W. R. Bailey, a successful phosphate miner of the Newberry district, was in the city on business yesterday.

W. B. Scarborough and family have moved from Pearl street, South Gainesville, to E. Lemon street, where they are now pleasantly located.

Attorney Geo. W. Scofield has gone to Inverness for a few days. It is understood that Col. Scofield, having become impressed with that lively town, has decided to locate there.

J. J. Jones, one of the oldest and most widely-known citizens of Jonesville, was in the city yesterday. Mr. Jones is an old Confederate veteran, and was looking after a pension.

C. C. Ivey and T. S. Dorsey have gone to Jacksonville. The latter will meet today his niece, Mrs. D. J. Hines, and daughter, of Louisville, Ky., who expect to visit Gainesville for several weeks.

Miss Tucker Boulware, who for the past year has been one of the popular salesladies in the store of J. Manasse, has resigned her position, and is now with the bindery department of the Pepper Publishing Company. Miss Tucker's friends will miss her in the store.

The Graves cottage, 308 West Court street, which is in process of erection, is rapidly assuming proportions, the contractor pushing the work to completion as early as possible. This will be a five-room cottage, but the plans show that it will be one of the neatest in that section of the city.

W. E. E. Kates and wife of Tampa have arrived in the city, and will make this their future home, residing with their daughter, Mrs. M. J. Cannon, North Arredondo street. Mr. Kates is a Spiritualist, and is very enthusiastic. He requests the reporter to announce that he would be pleased to meet and talk with any Spiritualist who might be in the city.

Penny & Copeland have received from Macon, Ga., ten head of fine registered Jersey cattle, several head of pigs, and a number of chickens, and expect in a few days to begin a new industry in this section, being a butter and egg farm. It is understood that they will not sell milk, but use the products of the cows exclusively for the manufacture of butter.

The work of placing a plate-glass front in the store occupied by Royal Cook, corner of West Main and Union streets, has begun. This will make, when completed, one of the handsomest store fronts in the city, and will afford to Mr. Cook a great advantage in displaying his goods. The building is owned by J. P. Bauknight, by whom the contract for this front was let to S. H. Dempsey.

From Saturday's Daily Sun.

R. J. Futch of High Springs was in the city yesterday.

Friends of Miss Mae Hale will regret to learn that she is indisposed at the home of her mother, East Main street N.

To Turpentine Operators—We make a specialty of setting stills. Let us estimate on your work. H. A. Fisher, Gainesville, Fla.

G. Sanford Chamberlin, a well-known and popular young man of the Tacoma section, spent yesterday in this city on business.

Warranty and mortgage deeds, chattel mortgages and labor contracts for sale at this office. Price 50 cents per dozen, or $2 per hundred.

Robt. L. Barton, the trucker of Rocky Point, was in the city yesterday. Mr. Barton reports a rain in his section, which was badly needed.

Drew Jones of Williston was in the city yesterday. His mother, Mrs. Henrietta Jones, is visiting Mr. and Mrs. Archer Jackson, near the city.

Friends of Mrs. J. B. Lloyd will regret to learn that she is confined to her room at the White House with lagrippe, and hope that she will soon recover.

Mr. and Mrs. P. D. Prevatt, East Gainesville, had a visit from the stork Thursday night, with the result that a fine boy was left at their home. Friends extend congratulations.

Mrs. J. A. Williams of Alachua, who has been here for the past few days as a guest of her brother, Captain J. Maxey Dell, has returned to her home. Mrs. Williams has many friends here who are always delighted to welcome her.

Mrs. Nelia Sheffield of Hawthorn arrived in the city yesterday, having come on account of the serious illness and subsequent death of her sister, Miss Cansas Higginbotham. Friends of the lady sympathize deeply with her in this hour of bereavement.

We are requested to advise our readers that owing to the short stay of Dr. Armstrong on his last visit he was not able to see all those who wished to consult him in regard to eye troubles, headaches, etc., and that he will make a visit on February 20th and 21st—two days—at the Brown House.

The Baird Hardware Company has a change of advertisement in this issue, in which they tell our readers the advantage of Sapolin as a house decorator. Sapolin is said to be the best thing in the world when it comes to enamelling, and the Baird Company guarantee satisfaction in its use.

State Attorney Rivers has returned from High Springs, where he went to represent the State in the case of W. H. Temple, charged with the murder of J. T. Chester, and at which preliminary hearing the defendant, who waived his presence, was committed to jail to await the action of the grand jury at the fall term of the circuit court.

Rev. Robt. Hugh Morris, formerly of Waldo but now pastor of the Oak Lane Presbyterian church, Philadelphia, has left the city, after a pleasant visit to his brother, Geo. P. Morris. Dr. Morris stopped at Waldo, where the good people had the pleasure of hearing him preach. He expects to preach in Macon tomorrow morning and Atlanta tomorrow evening, proceeding to his home from the latter city.

From Sunday's Daily Sun.

Fritz Roxborough, a well-known and popular young man of Windsor, was in the city on business yesterday.

Miss Hallie Hayman of Rocky Point, the efficient principal of the school at that place, was in the city yesterday.

Richard Simmons, A. Goolsby and Frank McDavid of Monteocha, and J. M. Shaw of Graham, were in the city yesterday.

C. L. Thigpin of Waldo, T. A. Doke of Santa Fe, B. A. Thomas of Monteocha and W. A. Strickland of Paradise were in the city yesterday.

Mrs. T. M. King of Windsor was in the city yesterday, spending the day with her husband, the clever agent of the Southern Express Company.

H. A. Fisher will go to Lochloosa Monday, in the vicinity of which place he has been engaged to do the brick work in the erection of a turpentine still.

The district meeting of the Knights of Pythias, which was to have been held in High Springs tomorrow (Monday), has been postponed until March 2nd.

Miss Hattie Mills, who has just closed a successful term of the school at Paradise, was in the city yesterday. She will open the Townsend school in a few days.

Dr. and Mrs. Birt and Mr. Langford, of Henning, Tenn., who have been here on a visit to Mr. and Mrs. Daughtrey for the past few days, have returned to their home.

Mr. and Mrs. J. G. Hitchcock of Archer were in the city yesterday, accompanied by their little son. Mr. Hitchcock is a successful sawmill operator of that section.

Mr. and Mrs. Joseph Minchesner of Birmingham, Ala., arrived in the city last night, and will spend a few weeks as guests of their daughter, Mrs. C. A. Faircloth, 206 N. Pleasant street.

W. T. Wilson of Alachua was trading in the city yesterday. Mr. Wilson reports a fine rain in his section Friday night, which came as a great blessing to the farmers of his section.

Mrs. R. Wilson is now receiving the new things in spring goods. Some special bargains are offered for this week in silk pongee, mercerized voiles, etc. Read the new ad. of this popular store elsewhere in this issue.

Prof. R. H. Montgomery, the efficient principal of the Orange Heights school, was in the city yesterday. It has been decided by the trustees to extend the term of this school for two months, so successful has it been.

Policeman C. L. Kite has returned from Hague, where he was called a few days ago on account of the illness of his little son, David, who has been quite sick with congestion of the liver. Friends will be glad to learn that the patient's condition is greatly improved.

S. F. Hardee of Fairbanks, and J. W. Hardee of Paradise, were in the city yesterday. The former, who is now employed by the Alachua Naval Stores Company, had his name enrolled upon the subscription list of The Sun, as he stated he desired to keep posted on the happenings of the county.

Mrs. D. J. Hines and interesting little daughter, Miss Ernestine, are in the city from Louisville, Ky., and will remain here for several weeks as guests of the former's aunt, Mrs. T. S. Dorsey. Little Miss Ernestine is quite a cute little lady, and is already making friends among those whom she has met.

J. A. Roberts, formerly of this city but now of Hawthorn, where he is employed with the naval stores works of P. H. Baker, was in the city yesterday. Mr. Roberts has many friends in this section who are always glad to welcome him. He has been quite ill for several months, but is much better now.

Mrs. H. H. McCreary returned yesterday from Starke, where she went as a guest of honor at a reception given by Joe Wheeler Chapter, U. D. C. It is needless to add that Mrs. McCreary enjoyed her visit and the reception thoroughly, as the ladies comprising the U. D. C. at Starke are extremely hospitable.

William Bailey, a well-known phosphate prospector of Alachua who has made many discoveries of value to the miners of this section, was among those who spent yesterday in this city. Mr. Bailey has made several important investigations in the vicinity of Alachua which are yet undeveloped, but are bound to prove good.

H. L. Beville of Rutledge was in the city yesterday. Mr. Beville, in connection with being one of the most progressive farmers in the county, is supervisor of the Stokes school, which has prospered under the direction of the present teacher. He noticed the fine compliment paid the school upon the occasion of a recent visit by Superintendent Kelley, and appreciated it fully.

E. K. Roxborough of Windsor, traveling representative of J. H. McLaurin, Jacksonville, was in the city yesterday, and left in the afternoon for his home, where he will spend Sunday with relatives and friends. Mr. Roxborough is an Alachua county boy, and is one of the most popular boys on the road, notwithstanding that he is the greatest and hardest snorer in this part of the country.

Hon. W. H. Anderson of Bronson, tax collector of Levy county and one of the most prominent citizens of the county, passed through the city yesterday en route home from Jacksonville, where he has been for treatment. Mr. Anderson had the misfortune to have his shoulder dislocated through a disease some time ago, from which he has suffered a great deal. His friends trust that the Jacksonville treatment will prove of benefit to him.

A. O. Steenburg and Geo. M. Weston made a trip to Rocky Point yesterday, where they went to look after some property. It is rumored that Mr. Weston, who was for several years superintendent of the famous Biltmore Estate in North Carolina, and who owns a nice farm in that State, is thinking seriously of locating here, as he has been looking after various lands in this immediate section. He is a cattleman who has no superior in the United States, and his location in this section would mean a great deal to the cattle industry here.

REAL ESTATE DEALS.

Property is still changing hands in North Gainesville, which is the best evidence that the good people in that suburb have confidence.

The last deal of importance was the sale by Rev. Wm. Carpenter to A. O. Steenburg of a handsome five-room cottage and lot, after which Mr. Steenburg transferred the same to N. G. Kline, who has been living on the place for the past year or more. Mr. Kline, realizing the convenience and value of the place, decided not to let go, with the result that he readily consented to buy.

Friends of Mr. Kline congratulate him upon this deal, which is one of the best made in North Gainesville for some time.
